- ✓ **PACKAGES** : Word Press, MS - (Word & Excel), Tally Prime

EDUCATION

MCA – MASTER OF COMPUTER APPLICATION – (Pursuing) 07/2025 – 05/2027
C. Abdul Hakeem Engg., & Tech., College, Tamil Nadu.
CGPA: 8.2

BCA – BACHELOR OF COMPUTER APPLICATION 06/2022 – 5/2025
SSS Arts and Science College Arcot, Tamil Nadu.
CGPA: 7.5

PROJECT

- **Robust Image / Video Data Hiding** (using Java program, Java Applet)
  - Developed a secure steganography system to embed and extract confidential data within digital images and videos using Java.
  - Designed an interactive Java Applet interface for real-time encoding and decoding operations.
- **Online Cab & Bus Booking Management System** (using MERN Stack)
  - Developed a full-stack Online Cab & Bus Booking Management System using the MERN stack
  - To enable users to search, book, and manage transportation services with real-time availability and secure authentication.
- **Secure File Sharing Application** (using Python)
  - Developed a full-stack Secure file sharing Application using HTML, CSS, PYTHON.
  - File Secure Share on Encryption and Decryption with Email supported.
- **Healthcare Resource Utilization and Patient Flow Analytics.**
  - Developed a dashboard to analyze patient appointments, waiting times, and bed occupancy for better hospital resource planning.
  - Built demand forecasting and alerts using Python & Pandas to identify peak hours and reduce patient delays.

FREELANCING PROJECTS

- **Tea shop billing website** (using HTML, CSS, JavaScript)
  - Developed a Tea Shop Billing Website using HTML, CSS, and JavaScript to manage product billing, generate invoices, and perform CRUD operations for efficient shop management.
- **T-shirt order website** (using HTML, CSS, JavaScript)
  - Developed a responsive T-Shirt Order Website using HTML, CSS, and JavaScript with CRUD operations to manage T-shirts orders, allowing users to add, update, view, and delete T-shirt orders efficiently.
- **Hotel Billing Management System** (using HTML, CSS, JavaScript, Node.js)
  - Developed a web-based billing system to food orders, and customer invoices with auto bill generation.
  - Implemented CRUD operations for billing with real-time calculation and easy payment tracking.

INTERNSHIP

- **DATA ANALYSIS** – **CREATOR SPACE LAB** – Completed Hospital Management System project with hands-on training. **(Online)** **(June 2026 - July 2026)**

WEBINAR

- **DIGITAL MARKETING** – **BRAND MONK ACADEMY (NSDC)** – Participated in Digital Marketing Webinar. **(Online)** **(Nov 2026)**

SOFT SKILLS

- Leadership
- Teamwork
- Time Management
- Problem-solving

CERTIFICATE

- NPTEL Fundamentals of Object Oriented Programming (2026)
- Google Cloud Computing Foundations (2025)
- Oracle Cloud Infrastructure Architect Associate (2024)

PRESENTATION

International Conference

- **NGAIDS – 2026** – Paper Presentation– (Game Theory and Economic Paradigms) – 11th Sep 26
- **NCAAIT'26** – Paper Presentation– (Post Quantum Cryptography in Cloud Computing) – 5th Mar 26

National Level Symposium

- **INFRONIX'26** – Paper Presentation– (Cyber Security in Post Quantum Cryptography) – 27th Feb 26

I hereby declare that all the details furnished above are true to the best of my knowledge & belief.
